Assisted Starts at the discretion of the tournament director, amateur divisions may use an assisted start in which the log is held steady at each end while the competitors position themselves. Once both competitors are in position, the head judge will begin the match by calling Ready, Steady, Roll, at which time the log will be released. When the head judge has determined that both competitors have equal control, he/she will call Time in and time will start. For assisted starts, the log must be oriented perpendicular to the dock or pool edge.

#5 Log: For amateur tournaments, the use of a #5 log is permitted.

It will be defined as being 11 in diameter and minimum of 12 feet in length. If a #5 log is to be used, the time limits for the match will be as follows:
